VOLUME CVIII--NO. 31.

ALEXANDRIA, VA., TUESDAY EVENING, FEBRUARY 5, 1907.

PRICE 2 CENTS.

## NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athletes have dyspepsia and his muscles would soon fall. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Para, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctor claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctor's medicine. I bought a bottle and we soon found that I began to improve, so I kept on the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 108 pages, bound in one of the best of cloth-bound copies. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

**HAIR NATURALLY ABUNDANT.**

When it is Free of Dandruff, it Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not dandruff, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newb's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It dissolves itching instantly; makes hair glossy and soft as silk. "Destroy the germ, you remove the effect." Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00.

E. S. Leadbeater & Sons, Special Agents.

## Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible, but I can cure you of the pain and swelling of this terrible disease.

In conformity with a Chemist in the City of Paris—France, I found that the ingredient which Dr. Shoop's Rheumatic Remedy was made of, was a perfect, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I uniformly cure all curable cases of this terrible, much dreaded disease. These salts, like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual cause to suffer longer with help. We sell, and in confidence recommended.

Marriage and death notices must be paid for in advance.

Resolutions in memoriam, of thanks, tributes of respect, resolutions adopted by societies or persons, unless of public concern, will only be printed in the paper as advertisements.

[Entered at the Postoffice of Alexandria, Virginia, as second-class matter.]

## FAMINE, PESTILENCE AND REBELLION.

The steamer Tartar, which arrived at Victoria, B. C., Sunday night, brought tidings that the revolution in Central China is becoming a serious menace to that country. A junction between the rebels of Hunan and Kwang Tung is threatened, with the result that a formidable rebellion will follow. Sun Yat-sen, the Kwang Tung rebel leader, who escaped from the Chinese Legation in London some years ago in a sensational manner, is living in Tokio, Japan, and is organizing the revolution which he says in an interview is expected to achieve the fall of the present Manchu dynasty within three years.

The rebels hold all the mountain fastnesses on the borders of Hunan and Kiangsi, and all attempts of the imperial troops to dislodge them have failed. In consequence of the rebellion Chinese authorities at Shanghai are adopting vigorous measures to check the importation of arms and ammunition. Agents of the revolutionists have been sent to the United States and Europe to purchase war material, says a dispatch to the Ataki of Tokio, and collusion has been found to exist between agents of the rebels and the traders to import arms under the guise of goods.

To date 20,000 imperial troops, with cavalry and artillery, have been sent against the rebels, but failed to achieve anything. Advice from foreigners who visited the district say it is doubtful whether the revolution can be suppressed should all the troops at the disposition of the government be sent. The leader of the revolutionists is Nung Chuntai, Siang Fiang, and placards issued by him state that the rebellion is aimed at the overthrow of the Manchu dynasty. Signs of unrest are reported from many places in China.

Despatches to the Achai from Mukden state that an outbreak against the dynasty is extreme in Manchuria, where a battalion of Chinese troops has murdered its officers. At Peking exceptional precautions are being taken, police and palace guards being doubled. Warnings have been sent by Viceroy Chang Chin Tung and Toan Fang that large numbers of secret society men from the Yang Tse Valley are flocking to Peking.

Further advices from the famine district of Central China, received by the steamer Tartar, state that smallpox has broken out in the camps and in consequence officials are breaking them up. The people are numbed by suffering and patiently submit to being driven.

Telegrams to the Jiji Shimpō say upwards of half a million people will die of starvation or disease incidental to the terrible conditions prevailing in the famine districts. Relief measures are stated to be inefficient and the fifth amid which the famine-stricken people live is described as shocking. No sanitary measures of any kind were adopted and it was inevitable that a pestilence should follow.

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. If safe even for the youngest child. Sold by E. S. Leadbeater & Sons, druggists.

## Another Mine Explosion.

An explosion, resulting in the killing of the mine superintendent, D. R. Jones, and 15 miners, occurred yesterday morning at Mine No. 25, of the Davis Coal and Coke Company, at Thomas, W. Va., as stated in the Gazette of that day.

Immediately after the explosion the work of rescue was put into execution. At 8 o'clock last night eight bodies had been removed, all being Italians or Lithuanians. Owing to the fact that all the miners entombed were foreigners and of limited acquaintanceship at Thomas, the company has found it difficult to form an accurate estimate of the total number caught, but it is believed that there are at least seven more, all of whom have likely met the fate of those whose remains have already been removed.

A most distressing accident incident to the work of rescue occurred about 5 o'clock yesterday afternoon, when D. R. Jones, the superintendent of the plant, lost his life while piloting one of the rescue parties. Jones, in his determination to aid the entombed men, seems to have laid aside all thought of personal safety, and was many feet in advance of the air current when the rescuers he was rescuing discovered his prostrate and unconscious form. He was even then dying, and succumbed soon thereafter.

## Struggle Between Lords and Commons.

In a speech at Manchester Eng., yesterday Winston Churchill, parliamentary secretary of the colonial office, referred to the coming campaign against the House of Lords. He said that society was vitiated by many features of wasteful folly and unfairness, none of which was more obvious than the twin evils connected with the House of Lords and

## ROSENFELD'S ONE PRICE TO ALL.
